

## **Quality, Safety and Environmental Policy**

### **DWS Wind Turbine Service Sp. z o.o.**

DWS Wind Turbine Service provides professional maintenance and repair services in the wind energy sector, particularly in the field of wind farms, while making every effort to ensure the highest standards of quality, safety and environmental protection.

The continuous development of a culture of safety, environmental awareness and the provision of services in accordance with the highest quality standards is a priority for the Management Board.

The senior management of DWS is committed to providing all necessary means and resources to ensure that work is carried out to the highest possible quality, with the protection of the health and safety of its own and other employees and respect for the environment.

This commitment will be implemented in particular through:

continuous monitoring of legal and other requirements, with particular emphasis on customer requirements in terms of quality, safety and the environment, and immediate action to meet them;

providing specialist training to all employees to ensure that their work is of the highest quality, meets the highest safety standards and has a minimal impact on the environment;

using the best technical solutions, including machinery, tools and equipment used to carry out the work;

having the work checked by supervisors with specialist knowledge;

carefully analysing all events related to quality, safety or the environment.
